

“For an outdoor person, Dalarna is just a dream, really. I simply fell in love with this lifestyle and Sweden in general.”

Aaricia Boutin, France, Erasmus and Master's Student

Having always been fascinated by Sweden's rich history, mythology, incredible nature and the open-mindedness of the people, I took an Erasmus year in Dalarna during my bachelor's degree.

The teachers here were the best teachers I have ever had. They genuinely care about their students and made me feel so welcome and safe. In fact, I loved Sweden and Dalarna University so much that I chose to stay another year and study the Master's Programme in Tourism Destination Development!

Studying here made me more independent and autonomous. I embraced my creativity and developed my social skills. Studying and living abroad opened my mind to new cultures and people; I never challenged myself, both physically and mentally, more than since I arrived here – and I love it!

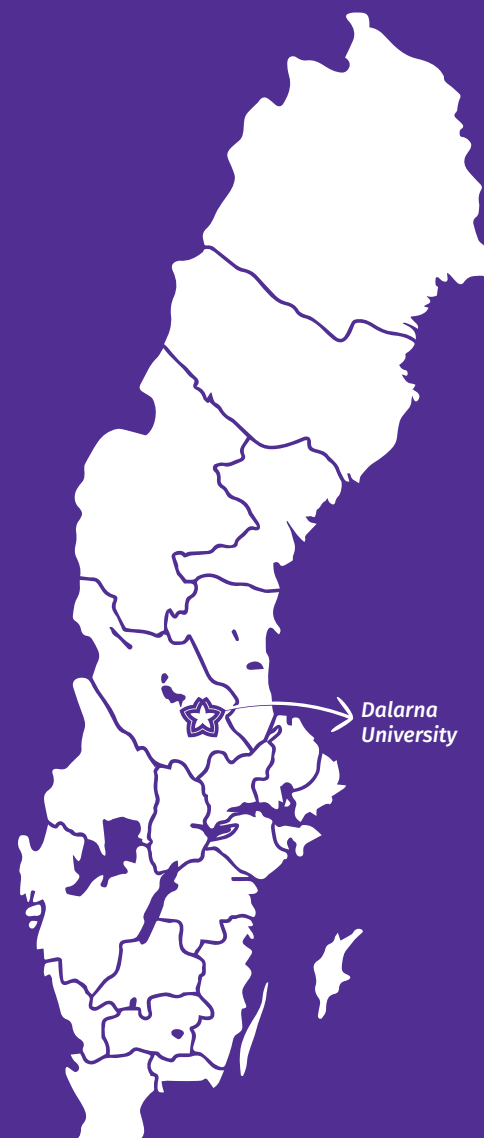

“I got a job as a data analyst consultant in a technology company in Sweden just three months after completing my Master's Programme in Data Science.”

Yasir Iman, Pakistan, Alumni, now working in Sweden

Studying in Sweden has encouraged me to think outside the box and be more expressive about my ideas. From protecting nature to sustainable living, from smart choices to equal opportunities, Sweden has made me feel welcome.

I was never a genius, but I was smart, and Dalarna University gave me enough time to adjust to the Swedish way. The faculty at Dalarna University have been excellent mentors during my studies and even after graduation. Coming to study in Sweden was one of the best decisions I ever made.

Study in English... in Sweden

Open, equal and green, Sweden is a place where everyone is invited to contribute with ideas and talent. Home to the Nobel Prize, Volvo, IKEA and Spotify, Sweden regularly tops global innovation indexes. Welcome to a modern, sustainable country with pristine nature that everyone has the right to access.

About Dalarna University

Dalarna University (DU) offers high-quality education based on our research and collaboration with many innovative companies within the region. Small classes, dedicated teachers who will know you by your first name, and the many Instagram-friendly destinations will make you feel at home in the cultural heart of Sweden.

Our students built the world's most energy-efficient vehicle, and we built Sweden's most modern and sustainable campus. Come chill with us and build a more sustainable future, the Swedish way.

As a DU student you will:

- **learn** from teachers who will actively engage with you in your learning process
- **create** a network of friends from all over the world
- **interact** with organisations focusing on innovative solutions to meet the 2030 Sustainable Development Goals
- **experience** the northern lights in winter, the midnight sun in summer and nature adventures all year-round
