

Course Syllabus

French IV: Linguistics with a Focus on Language Learning 7.5 Credits*, Second Cycle

Learning Outcomes

On completion of the course, students will be able to:

- reflect on research literature in French within an area of linguistics with a focus on the learning of a foreign language, and will also be able to make use of various language learning theories
- formulate, evaluate and discuss different issues within language learning
- analyse a corpus or sequences from different corpora with a focus on language learning
- explain in academic French, in both written and oral form, the latest research in language learning in a coherent and methodologically and terminologically customary manner.

Course Content

The course looks at linguistics with a focus on learning a foreign language based on different texts, corpora and scientific works. In consultation with the teacher, students select a subject to specialise in.

Assessment

Students are assessed by way of written and oral assignments, active participation in seminars and a short linguistic analysis that they present in oral and written form.

Forms of Study

Obligatory seminars. The language of instruction is French.

Grades

The Swedish grades U–VG.

Prerequisites

90 credits in French including 30 credits in French III

Subject:

French
