

## Course Syllabus

### **Japanese: Intercultural Communication 15 Credits\*, Second Cycle**

#### **Learning Outcomes**

On completion of the course, students will be able to:

- discuss basic concepts, conceptual frameworks, and broader contexts of intercultural communication
- analyse and discuss examples of cross-cultural conflicts in a variety of situations (applying them specifically but not limited to cases involving Japan)
- identify barriers to effective intercultural communication
- display intercultural sensitivity in terms of beliefs, values, and norms
- problematise the concept of intercultural competence.

#### **Course Content**

The course focuses on fundamental, conceptual, and practical dimensions of intercultural communication in everyday life that includes social, business and media-driven contexts. Various examples of social interaction in multicultural environments, focusing especially on the Japanese context, will be analysed and discussed in order to develop students' intellectual appreciation for cultural differences and sensitivity regarding intercultural interaction.

#### **Assessment**

Active performance in seminars, written assignments, a final paper, and an oral presentation of the final paper.

#### **Forms of Study**

Obligatory seminars. The languages of instruction are English and Japanese.

#### **Grades**

The Swedish grades A - F.

The final grade for the course is based on an overall assessment by the examiner.
